github.com/rezaeiar

Frontend Developer with 3+ years of experience building scalable web applications using React, Next.js, and TypeScript. Skilled in large-scale CMS development, state management (React Query, Zustand, Redux Toolkit), and cross-functional collaboration with backend and design teams. Brings strong self-directed learning and problem-solving skills.

Work Experience

NikAmmoz Tehran, Iran
Frontend Developer | Full-time (Hybrid) May 2025 – Present

- Built and maintain 2 large-scale administrative dashboards using React, Next.js, TypeScript, TanStack Query, Zustand, and Tailwind CSS, working within a 20-person cross-functional engineering team.
- Closed a communication gap between design, frontend, and backend teams, accelerating feature delivery roughly 3x — a feature originally scoped for 3 sprints was delivered in a single sprint.
- Established role-based access control (RBAC) and complex business workflows, adding type-safe forms with Zod and React Hook Form and WebSocket-based real-time notifications within the CMS.
- Refactored frontend architecture into reusable, feature-based components, improving long-term maintainability and development speed.
- Wrote unit and integration tests with Vitest and React Testing Library, reducing regressions.

ByHex Tehran, Iran
Frontend Developer | Full-time (On site) January 2025 – May 2025

- Migrated financial web applications (an investment platform and a currency exchange system) from Vue/Nuxt to Next.js — the team had no dedicated Vue/Nuxt developer — improving both development speed and site performance.
- Applied SSR, SSG, and ISR rendering strategies with the Next.js App Router, and built UI components with shadcn/ui.
- Built multilingual interfaces (Persian, English, Arabic) and responsive landing pages tailored to client requirements, using Zod and React Hook Form for type-safe forms.

Banicom Tehran, Iran
Frontend Developer | Contract (Remote) November 2024 – January 2025

- Built and delivered 2 gamified mini-games (including a Sudoku-style game) within a 2-month engagement for a banking platform's gamification module (pre-production), using React and TypeScript, with score tracking and business logic.
- Collaborated with backend engineers to integrate APIs and deliver reliable, type-safe frontend solutions.

Sdata Tehran, Iran
Frontend Developer | Part-time (Remote) July 2024 – November 2024

- Customized and delivered 5–6 client e-commerce and café website projects concurrently throughout the engagement, based on existing templates tailored to client requirements.
- Migrated project styling from a fragmented mix of CSS and Bootstrap across many files to Tailwind CSS, cutting new-page development time roughly 3x.
- Built responsive user interfaces and collaborated with designers to deliver consistent user experiences across projects.

Freelance / Independent Projects Remote
Frontend Developer | Freelance & Team Projects 2023 – 2024

- Designed and built small-scale websites and web applications independently and within small teams, including a landing page for a trading and financial markets platform, applying React (learned 2022) and Next.js (learned 2023) skills, including data visualization with Chart.js and Recharts, prior to full-time employment.

Skills & Achievements

Hard Skills: JavaScript (ES6+), TypeScript, React, Next.js (App Router, SSR/SSG/ISR), HTML5, CSS3, Tailwind CSS, shadcn/ui, TanStack Query, Redux Toolkit, Zustand, Zod, React Hook Form, Formik, Yup, Chart.js, Recharts, React Flow, REST APIs, WebSocket (basic), Vitest, React Testing Library, Web Accessibility fundamentals (WCAG, ARIA)

Tools: Git, GitHub, Figma, Postman, Jira, npm, pnpm, Agile/Scrum, Code Review, Pull Requests

Soft Skills: Strong communicator, effective cross-team collaborator, adaptable to new environments, proactive problem-solver, reliable under tight deadlines.

Education

Islamic Azad University <i>Bachelor Degree in Microbiology</i>	Tehran, Iran 2021 – 2025
